

To test fon-weight resolution in @font-face, the divs below have all been assigned the same font-family, but with a different weight. In the font-face declarations, the weights will point to different font files

1. Droid Serif Regular
2. **Droid Serif Bold**
3. Droid Serif 400pt
4. **Droid Serif 700pt**
5. Droid Serif 300pt
6. Droid Serif 500pt
7. **Droid Serif 800pt**
