

NORMAL: Sequences of white space are collapsed. Newline characters in the source are handled the same as other white space. Lines are broken as necessary to fill line boxes.

<div>white-space: normal;</div>	<div>Whitespace character is &lt; &gt; here. non-breaking space &lt; &gt; here. OGHAM SPACE MARK &lt; &gt; here. 2BR &lt; &gt; here. CR(Carriage return (slash r) &lt; &gt;) and LF(Line feed (slash n) or &lt; &gt; here). CR LF &lt; &gt; here. LF CR &lt; &gt; here. Some very long text is here also. Some very long text is here also. Some very long text is here also.</div>
---------------------------------	---

NOWRAP: Collapses white space as for normal, but suppresses line breaks (text wrapping) within the source.

<div>white-space: nowrap;</div>	<div>Whitespace character is &lt; &gt; here. non-breaking space &lt; &gt; here. OGHAM SPACE MARK &lt; &gt; here. 2BR &lt; &gt; here. CR(Carriage return (slash r) &lt; &gt;) and LF(Line feed (slash n) or &lt; &gt; here). CR LF &lt; &gt; here. LF CR &lt; &gt; here. Some very long text is here also. Some very long text is here also. Some very long text is here also.</div>
---------------------------------	---

PRE: Sequences of white space are preserved. Lines are only broken at newline characters in the source and at br elements.

<div>white-space: pre;</div>	<div>Whitespace character is &lt; &gt; here. non-breaking space &lt; &gt; here. OGHAM SPACE MARK &lt; &gt; here. 2BR &lt; &gt; here. CR(Carriage return (slash r) &lt; &gt;) and LF(Line feed (slash n) or &lt; &gt; here). CR LF &lt; &gt; here. LF CR &lt; &gt; here. Some very long text is here also. Some very long text is here also. Some very long text is here also.</div>
------------------------------	---

PRE-WRAP: Sequences of white space are preserved. Lines are broken at newline characters, at br, and as necessary to fill line boxes.

<div>white-space: pre-wrap;</div>	<div>Whitespace character is &lt; &gt; here. non-breaking space &lt; &gt; here. OGHAM  SPACE MARK &lt; &gt; here. 2BR &lt; &gt; here. CR(Carriage return (slash r) &lt; &gt;) and LF(Line feed  (slash n) or &lt; &gt; here). CR LF &lt; &gt; here. LF CR &lt; &gt; here. Some very long text is here also. Some very long text is here also. Some very long text is here also.</div>
-----------------------------------	---

PRE-LINE: Sequences of white space are collapsed. Lines are broken at newline characters, at br, and as necessary to fill line boxes.

<div>white-space: pre-line;</div>	<div>Whitespace character is &lt; &gt; here. non-breaking space &lt; &gt; here. OGHAM SPACE MARK &lt; &gt; here. 2BR &lt; &gt; here.</div>
